**Relief From Curse Of Constipation**

A Battle Creek physician says, "Constipation is responsible for more misery than any other cause." But immediate relief has been found. A tablet called Rexall Orderlies has been discovered. This tablet attracts water from the system into the lazy, dry, evacuating bowel called the colon. The water loosens the dry food waste and causes a gentle, thorough, natural movement without forming a habit or even increasing the dose.

Stop suffering from constipation. Chew a Rexall Orderlie at night. Next day bright. Get 24 for 25c today at the nearest Rexall Drug Store, Dolley Drug Co.—Adv.

**Pioneer's Path Followed by Old Ship Now Rounding Horn**

BY PERCY C. RICHARDS  
United Press Staff Correspondent  
SAN FRANCISCO, May 15.—The music of the wind is singing in the rigging of the windjammer Abraham Rydberg.

And the songs that are wafted across the bleached deck of this proud sailing ship are as old as those the birds sang centuries ago in merrie England.

They are songs of the prowess of famed old navigators and are a pleasing accompaniment to the swish of water that drenches in the ears of the ship's crew as the Abraham Rydberg, her sails bellying before a stiff breeze, noses her way around Cape Horn.

Let it be known that the Abraham Rydberg sailed through the Golden Gate on January 25, on a voyage just as dangerous as that which encountered the Golden Hind that flew Drake's flag around the Horn; as perilous a passage as that undertaken by Magellan.

The Abraham Rydberg is making the passage around the Horn, bound for Dublin and Sweden. For weeks nothing had been heard from this windjammer of ancient vintage and apprehension was felt by those interested in her.

Now comes news from the ship, by a fortuitous route, that all is well and she hopes to round the Horn some time this month, God and wind willing.

Formerly known as the Star of Greenland, the Abraham Rydberg is taking a cargo of grain to Dublin, from whence she will proceed to Sweden to become a training ship for Swedish mariners. Unlike her sister ships she is not doomed to the disreputable niche of prison ships such as other vessels of the famous Star fleet have been.

The Abraham Rydberg is riding the route over which the ghost of the famous Thermopylae sails, around the Horn to a more creditable position in the marine world than her sisters hold at present.

The four-masted bark was built in Scotland for A. Nelson of Hawaii. She rounded the Horn in
